DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Sheldon Landsman on January 10, 2008.

The application has been amended as follows:

Claims 12-13, 15, and 17-18 are cancelled.

Allowable Subject Matter

Claims 1, 6-11 are allowed

The following is an examiner's statement of reasons for allowance:

The prior arts of record fail to teach or suggest a method of producing a silicon carbide crystal comprising the steps of providing a graphite-made growth crucible with a low temperature section and a high temperature section; placing a seed crystal substrate formed of silicon carbide single crystal in the low temperature section of the growth crucible; placing a silicon carbide raw material in the high-temperature section of

the growth crucible; and depositing a gas sublimated from the silicon carbide raw material onto the seed crystal substrate; further using an outer crucible to surround the growth crucible, with a space left there-between; and continuously feeding a silicon raw material in solid form from outside into the space; also evaporating the silicon raw material in the space to form a silicon gas serving as the atmosphere gas surrounding the growth crucible wherein the silicon carbide single crystal is grown with an atmosphere gas which surrounds the growth crucible containing a silicon gas with vapor pressure of the silicon gas that surrounded gas continuously maintained to be higher than the silicon gas in the gas sublimated from the silicon carbide raw material in the growth crucible and further vapor pressure of silicon gas in the growth crucible maintained substantially equal to or higher than equilibrium vapor pressure of the silicon gas contained in the sublimated gas.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
